

Foundation Phase Music project

Hello my little angels, I hope you are all well and keeping safe during this time. I miss you all, especially in class Music.

I have attached an audio clip of ***head, shoulders, knees and toes***. I would like each of you to ask an adult to help record yourself singing and doing the dancing actions to this song. These video recordings can be sent to me via whatsapp.

You will need two phones, one phone will play the audio recording I have sent, while the other phone records you singing and dancing 😊

I would like to create a virtual video of all foundation phase girls, and this will be our project for Class Music.

I am looking forward to all of your exciting videos, Please do not hesitate to ask me any questions.
